INTERNATIONAL TELECOMMUNICATIONS NETWORKING WORKSHOP 2008 - 1

The slide has the same background as the first slide. The title 'About this conference' is in a bold brown serif font. It is followed by a bulleted list of three items in a black sans-serif font. The text 'IT-NEWS 2008' is visible on the left, and the full workshop name is at the bottom.

**About this conference**

- IT-NEWS (formerly QoS-IP) has come to its 4th edition, after Rome (2001), Milan (2003) and Catania (2005)
- It has been jointly organized by the Italian networking community as an opportunity to present results of national projects and to share innovative ideas and research outcomes with the international technical community
- This 2008 edition was mainly organized by Politecnico di Torino

INTERNATIONAL TELECOMMUNICATIONS NETWORKING WORKSHOP 2008 - 2

## Organizing projects:

- **BORA-BORA** (Building Open Router Architectures Based on Router Aggregation)  
– Andrea Bianco
- **FAMOUS** (Fluid Analytical Models Of aUtonomic Systems)  
– Alfio Lombardo
- **MIMOSA** (Misure sperimentali e MOdelli di traffico dati multiServizio A pacchetto)  
– Achille Pattavina
- **OSATE** (Optics in Switching Architectures: Theory and Experimentation)  
– Fabio Neri

**F★mOUs**

Fluid Analytical Models Of aUtonomic Systems

**Progetto MIMOSA**

Misure sperimentali e MOdelli di traffico dati multiServizio A pacchetto

INTERNATIONAL TELECOMMUNICATIONS NETWORKING WORKSHOP 2008 - 3

## The venue

- We selected Venice because of its charme and international appeal as a touristic landmark
- We chose the historical Hotel San Clemente to give the opportunity to all delegates to stay together for three days in a beautiful and pleasant location
- We hope that you will enjoy your stay, and will have time to visit Venice

INTERNATIONAL TELECOMMUNICATIONS NETWORKING WORKSHOP 2008 - 4
